The Art of Living (TAOL) is a charitable trust bringing in transformation in India through The Art of Living Training Programs and implementing a broad range of service projects to uplift and empower individuals, families, and communities so that the full potential of human life can be expressed.

Jijamata College of Science and Arts is a well known College / Institute based in Nevasa, Maharashtra, India and established /founded in the 1992 is a modern educational institution. It offers under graduate and post graduate courses in Science, Arts and Commerce.

3. The Objective:

The 'Partners', decided that it was mutually beneficial to have a formal understanding between them in sensitizing the students, faculty and staff of the JCS&A about The Art of Living Training Programs.

A) For Students -

The purpose of education is to prepare a person for life. To an experienced educationist, it is a well-known fact that the age group of 18-30 years is extremely crucial. This is the age where issues of career, relationships, peer/parental pressures, and anxiety about the future all come to the fore simultaneously. For youth bogged down by these issues, academic/professional performance and development to their full potential suffers. Nowhere, neither at home nor at school, have we been taught how to deal with our stress and negative emotions.

WHO defines Life Skills as 'the abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demand and changes of everyday life.' The Art of Living programs are specially designed to develop the Knowledge Aspects which the New Education Policy (NEP) 2020 refers to - soft skills such as communication, discussion, debate, teamwork, social and moral awareness.

TAOL TRUST OFFICE THE ART OF LIVING NTC

B) For Faculty and Staff -

Faculty members are the cornerstone of any educational institute as they are instrumental in shaping the future of students. The tremendous stress and burn out the faculty and staff go through along with the various challenges in their professional and personal life, affects their delivery, compliment and overall performance. It is imperative that we equip the faculty and staff with the right tools and techniques that empower them to deal with the challenges, have more resilience, improved efficiency and productivity. The partnership provides an opportunity to train faculty and staff in mind management techniques, leadership skills, life skills in addition to the technical training which the University provides. The Art of Living program aims to empower the faculty and staff with the practical tools and techniques to get rid of stress, anxiety, negativity and achieve calm and peaceful mind which in turn helps them in day-to-day life through renewed sense of enthusiasm and optimism, harmonious interpersonal relationships, better decision making, sense of connectedness and ability to work in teams.

Youth Empowerment & Life Skills (YES!+) Program for the students aged 18+,
and
